WELCOME TO EMPOWERING THE NATION

Empowering the nation is a school for the community. We need necessary skills to survive in this fast paced life and we are here to make sure everybody has access to programs aiming to provide those skills. We have six months courses and six weeks courses because not everyone has the time to spare for long duration courses. The skills we offer are much needed and we want to make sure they can be acquired as quickly and as affordably as possible.

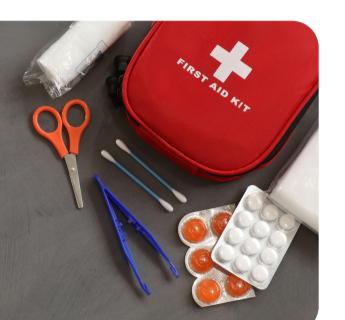

We offer courses in two categories, suitable for everyone
